**Bhutan - The Hidden Jewel of the Himalayas and Kingdom of the Thunder Dragon.** On our 13-day motorcycle tour through Bhutan, you can look forward to winding roads, no traffic worth mentioning, the Trumshing La (3,789 meters) and Chele La (3,988 meters) passes and truly stunning views. Ride with us through the remote kingdom and experience a Buddhist culture where people have recognized happiness as the supreme good in the world and ancient traditions live on today.

Our Bhutan bike tour delivers unforgettable experiences and insights into a country that has stayed under the radar of mass tourism. We take time not only for its magnificent landscapes but also meet its wonderful, friendly people and stay in charming boutique-style guest houses and hotels.

**Bhutan is waiting for you to discover it!**

**Our biking philosophy:** We only take the best routes. It certainly would be an annoying transfer stage to ride back to India at the end of the tour - just to save money on logistics. We leave our bikes in Paro where the most beautiful roads come to an end. And take a plane out - while our bike are being transported back to India by truck.

On our new website you will find more info about the tour.

Biker : 4.990€

### We updated our extremely popular Bhutan Intensive Motorcycle Tour And made it even better!

In 2019 some new exiting roads were opened in Bhutan. Now we can ride into the completely untouched Gaza valley and see even more of the country and its people. The valley impresses with clear views on the giant snow mountains separating Bhutan from Tibet; nowhere else in Bhutan you get as close as here. On the last day of our Bhutan motorcycle tour we will hike to the world famous Tigernest monastery in the mountains, enjoy the afternoon with massages, shopping or a traditional „hot stone bath“. Farewell takes place at a Bhutanese folklore dance show in our popular, exclusive heritage hotel.
